REMARKS/ARGUMENTS

Reconsideration and allowance in view of the above amendments and the following comments are respectfully requested. Upon entry of this amendment, claims 1-17 will remain in the application.

Objections to the Drawings

The drawings have been objected to under 37 CFR 1.83(a) as allegedly not showing a plurality of closely coupled networked computer systems as recited in claims 1 and 15. A proposed amendment to Figs. 6 and 7 of the drawings has been made as requested by the Examiner. The specification has also amended on pages 24-25 to reflect the changes in the drawings. Entry of the proposed changes and withdrawal of the objection to the drawings is respectfully solicited.

Obviousness-type Double Patenting Rejection

Claims 1-12, 14-15, and 17 stand provisionally rejected under the doctrine of obviousness-type double patenting as allegedly being obvious over claim 13 of copending U.S. Patent Application Serial No. 09/310,543 in view of Narisi et al. 6,233,619. A Terminal Disclaimer is attached hereto for purposes of overcoming this rejection. Withdrawal of the obviousness-type double patenting rejection is respectfully solicited.
